Part 1: Payment types

1.1 Transfers between your accounts

You can transfer money between your own CommBiz-enabled Commonwealth Bank accounts at any time, subject to payment cut-off times.

1.2 Direct credits and debits

A direct credit is an electronic transfer of money from one of your CommBiz-enabled accounts to someone else's account at an Australian financial institution.

A direct debit is an electronic transfer of money to one of your CommBiz-enabled accounts from someone else's account. If we approve you to use direct debit, you can use it to collect payments from accounts held at Australian financial institutions.

If you use direct credit or direct debit, you agree to be bound by the Regulations and Procedures of the Bulk Electronic Clearing System (BECS), published by the Australian Payments Network (APN - previously APCA) at www.auspaynet.com.au.

1.2.1 BECS User ID

You can make a direct credit using either your own direct credit BECS User ID (also known as APCA ID), or a shared User ID we have allocated.

1.2.2 Trace accounts

When you make a direct debit or direct credit you must specify an account as a trace account. If the receiving institution can't or won't accept the payment for any reason they return the money to the trace account.

1.2.3 Processing dates

Direct debits and direct credits will be accepted on a day which is a business day in any State. If it is a holiday, the bank receiving the payment may delay processing.

1.3 Priority Payments

A Priority Payment is a time critical and irrevocable electronic transfer of an amount in Australian dollars to another financial institution within Australia.

If you use Priority Payment you agree to be bound by the Regulations and Procedures of the High Value Clearing Stream (HVCS), published by the Australian Payments Network (APN - previously APCA) at www.auspaynet.com.au.

1.4 Fast Payments

A Fast Payment is a near real-time payment with rich information which is available 24 hours a day, 7 days a week. Fast Payments can be made to a registered PayID under the New Payments Platform (NPP). Registered PayID can be a telephone number, email address, ABN/ACN or organisation identifier.

The NPP is used to process Fast Payments outside of the Commonwealth Bank account network.

1.5 International Payments

An International Payment (which we also sometimes refer to as an International Money Transfer or IMT) using CommBiz is:

- an electronic transfer of money to an account outside of Australia, or
- an electronic transfer of money to an account within Australia that involves foreign currency (where either the debit or credit currency is foreign currency).

Part 1: Payment types

If you have CommBiz-enabled Commonwealth Bank Foreign Currency Accounts, you can also transfer between these and your other CommBiz-enabled Commonwealth Bank Accounts using the International Payments Functionality.

Overseas or Australian banks and their correspondent banks (which may include overseas banks or banks located in Australia) are responsible for paying the transferred money to the recipient.

The timing and currency conversion of the payment are governed by the domestic regulations and bank practices in the recipient's country and are beyond our control. All enquiries to overseas banks and their correspondent banks about payments are at your own cost.

1.5.1 Acknowledgements

By applying for an International Payment you acknowledge that:

- we may have to use the services of intermediary banks other than the ones you request.
- to complete an International Payment we will need to transfer certain personal information, including name, address and BSB and account numbers outside of Australia.
- we may receive a commission from or enter into a commission/revenue sharing arrangement with correspondents. The amount will be determined by various factors.
- money sent overseas is usually available for payment to the recipient within 3 business days (Australian time) of our accepting your instructions. This timeframe may be extended due to the requirements and practices of overseas banks and regulators and other circumstances beyond the Bank's control (such as international communications breakdowns and problems or delays in processing of a payment by other banks). Some payments may be subject to delays due to additional screening and processes (e.g. payments to first time beneficiaries).

1.5.2 Returned payments

We have to accept the return of a money transfer if any party connected with or having jurisdiction over the transaction refuses to accept it.

- we can credit any proceeds we receive to the account from which the money originally came
- we are not liable to any party for any losses or damage as a result of the return of the payment.

If any foreign currency funds are returned to us, we will convert them into the original currency of the funding account using the applicable foreign exchange rate on the day the funds are credited to your account. We will credit the money to the account specified in the International Payment application.

1.5.3 Refusing an application

We can refuse an application for an International Payment if we believe that processing it would offend against any policy or law relating to money laundering, sanctions, or the national interests or security of any State. We can also refuse to process an International Payment because the destination account previously has been connected to fraud or an attempted fraudulent transaction or is an account used to facilitate payments or is an account used to facilitate payments to Bitcoin or similar virtual currency payment services. We are not liable to any party for any loss or damage from any decision not to process the application based on any of these grounds.

Part 1: Payment types

1.5.4 Exchange rates

Exchange rates are indicative only and are subject to change. The exchange rate is determined when the transaction is authorised (this is when a transaction is fully authorised in CommBiz and the transaction status becomes “Authorised”) and this is the rate provided on the receipt. Transactions will not be submitted for processing if they are not fully authorised before the cut-off times on the value date of the transaction (refer to 15.2 Foreign currency cut-off times). In the event that a payment is rejected or not submitted for processing (e.g. due to insufficient funds in the debit account), then the exchange rate determined at authorisation is no longer applicable.

1.5.5 Charges by overseas banks

As well as any fees and charges we apply, you may also have to pay fees and charges to overseas banks and their correspondent banks involved in the transaction. There may be more than one other bank involved, each of which may charge a fee.

We will generally tell the other banks involved in the transaction to deduct their fees from the payment. This means that the person receiving the payment will receive a lower amount than the amount you sent.

If the overseas bank or their correspondent bank doesn't deduct their fees and charges from the payment, you agree to reimburse us for any fees and charges they pass on to us. You agree that we can debit this amount from your fees account.

For payments to selected countries and currencies you can elect to pay us an additional upfront fee (see Section 18) to cover overseas bank charges. If you choose this option:

- you agree to pay the applicable fee which will be debited from your fees account; and
- you request that the fees from the overseas banks be charged to the Commonwealth Bank instead of being deducted from your payment.

1.6 International Cash Management

International Cash Management (ICM) services are available on application and allow you to make and receive payments in Hong Kong Dollar (HKD), Singapore Dollar (SGD) and/or United States Dollar (USD)(in Hong Kong Only) through the local payment streams in Hong Kong and Singapore. You can access these services if you have CommBiz-enabled Commonwealth Bank Foreign Currency Accounts. Please also refer to Foreign Currency Account Terms and conditions.

You can also transfer between these and your other CommBiz-enabled Commonwealth Bank Accounts using the International Payments functionality.

1.6.1 Accessing ICM Services

In order to use the ICM services you must have a Foreign Currency account with the Bank in the required currency/ies

When you make a request for ICM services the Bank will open a reference account with the partner bank for the purpose of receiving funds on your behalf. The reference account details will be provided to you. No additional account operating authority is required.

1.6.2 Account Currency

The account(s) used for accessing ICM services need to be in the same currency as the payments and deposits in relation to the account(s). ICM transactions in currencies other than the account currency will not be accepted. This restriction does not apply to transactions other than ICM services.

1.6.3 Making Deposits

In addition to the features of your Foreign Currency Account you can deposit funds by receipt of:

Part 1: Payment types

- Real Time Gross Settlement (RTGS) payments to the reference account in SGD, HKD and/or USD (in Hong Kong only)
- Lockbox deposits to the reference account in SGD, HKD and/or USD (in Hong Kong only).

Parties arranging collections to your account need to quote the reference account details assigned to you.

- ACH payments in HKD
- RTGS payments in HKD
- ACH payments in SGD
- RTGS payments in SGD
- RTGS payments in USD (in Hong Kong only).

1.6.5 Cut Off Times

Cut-off times for ICM payments are the same as for international payments. Please refer to 15.2 Foreign currency cut-off times.

1.6.6 Acknowledgements

By applying for ICM services you acknowledge and consent that:

- we will use the services of a partner bank
- to complete an ICM payment we will need to transfer certain information, including account name, account holder address and BSB and account numbers outside of Australia without limiting your rights against us, you agree to waive any present and future claims against our partner bank in respect of the ICM Services.

1.6.7 Returned payments

We have to accept the return of a funds transfer if any party connected with or having jurisdiction over the transaction refuses to accept it.

If this happens we:

- can credit any proceeds we receive to the account from which the money originally came
- are not liable to any party for any losses or damage as a result of the return of the payment.

If any foreign currency funds are returned to us, we will convert them into the original currency of the funding account using the applicable foreign exchange rate on the day the funds are credited to your account. We will credit the money to the account specified in the ICM application.

1.6.8 Refusing an application

We can refuse an application for an ICM transaction if we believe that processing it would offend against any policy or law relating to money laundering, sanctions, or the national interests or security of any State. We can also refuse to process an ICM transaction, because the destination account previously has been connected to a fraud or an attempted fraudulent transaction or is an account used to facilitate payments to Bitcoins or similar virtual currency payment services. We are not liable to any party for any loss or damage from any decision not to process the application based on any of these grounds.

Part 1: Payment types

Our partner bank and their correspondent banks (which may include overseas banks) are responsible for paying the transferred money to the recipient.

The timing of the payment is governed by the domestic regulations and bank practices in the recipient's country and are beyond our control.

1.6.9 Fees and charges

When you make a request for ICM services the Bank will advise the fees applicable. These may include but are not limited to:

- Monthly account fee
- RTGS payments
- ACH payments.

1.6.10 Charges by overseas banks

As well as any fees and charges we apply, you may also have to pay fees and charges to overseas banks and their correspondent banks involved in the transaction.

If the overseas bank or their correspondent bank doesn't deduct their fees and charges from the payment, you agree to reimburse us for any fees and charges they pass on to us. You agree that we can debit this amount from your fees account.

1.7 BPAY®

You can tell us to make payments using the BPAY Electronic Payments Scheme (BPAY Scheme) to billers who agree to receive the payments through the BPAY Scheme.

You can make BPAY payments and Batch Entry BPAY payments. Using Batch Entry you can make BPAY payments to one or more billers.

1.8 Automated payments

Using automated payments you can send us instructions in an electronic file to enable us to make multiple payments from your accounts. Instructions for payments are subject to cut-off times for the relevant payment type (please refer to Part 15: Cut-off times).

1.8.1 File format

Electronic files must be formatted and contain the information in accordance with our file specifications.

1.8.2 Approval

We must approve you before you can use the pre-authorised automated service. Our approval may be limited to one or more of three options, subject to the availability of our systems:

- pre-authorised automated service
- manual authorised automated service

Part 1: Payment types

We are not responsible for any acts or omissions of you or your officers, employees or bureaus (including but not limited to the amount, accuracy, timeliness or authorisation of the payment instruction).

1.8.5 Third-party communications

If you transmit a request to us through an Enterprise Resource Planning (ERP) system or other third-party communications system we have not specifically provided, we are not liable for discrepancies between the information you transmit to us and the information we transmit to you.

1.9 Non-CBA Payment Requests

A Non-CBA Payment Request is when you have authorised us to send an instruction to another financial institution to transfer money out of an account you hold with that financial institution.

With a 'Non-CBA Payment Request', you can give payment instructions using CommBiz for an account you hold with any financial institution that has agreed to receive these instructions from us. You can use this function to centralise cash management of accounts held with multiple financial institutions. Instructions sent to other financial institutions are subject to the Foreign currency cut-off times (refer to 15.2 Foreign currency cut-off times).

3.1 Legal risk

As a member state of the United Nations, Australia has to implement United Nations Security Council sanctions. Australia also may have to implement other international sanctions and sometimes imposes unilateral sanctions. Sanctions can include financial restrictions that may prohibit us from dealing with certain people or entities.

If we are aware that you are a proscribed person or entity, then we may have to suspend, cancel or refuse you services or close or terminate any account, facility, transaction, arrangement or agreement with you. We may also be required to freeze your assets. You could incur significant costs as a result of these actions.

3.2 Operational risk

Operational risk is the risk of loss from failed internal processes, people and systems, or actions because of external events.

You rely on our ability to provide your statement data and process your payment requests in a timely and accurate way. We in turn depend on our own operational processes, including public communications, computers and associated infrastructure.

While we take great care to ensure that our systems and processes are robust, you accept that disruptions to our processes may cause delays in providing your statement data and processing payments.

3.3 Authorising payments

Payments processed on a due date will be difficult to cancel on or after that date, depending on the payment type. You must not authorise payments until you have confirmed that you want them processed.

Part 4: Security

4.1 Unauthorised access

You must take adequate precautions to prevent unauthorised users gaining access to your computer systems, accounts and, if you have CommBiz Mobile, to prevent unauthorised users gaining access to a mobile device on your CommBiz service. This includes the use of appropriate anti-‘spamming’, anti-‘key logging’ and anti-‘virus’ software, as well as appropriate personal computer or network ‘firewall’ protection. You must only install approved applications on the mobile device and you must not override the software lockdown on the mobile device (i.e. jailbreak the mobile device).

If you fail to take adequate precautions it is possible that unauthorised persons may alter your Instructions or give us instructions using your Security Identification. You are liable for losses resulting from any such altered or unauthorised instructions except where clause 5.3 applies.

We recommend that you constantly monitor your accounts and CommBiz service to check that all transactions are accurate and properly authorised by you.

It is each Administrator’s responsibility to ensure you have authorised each User’s respective level of access to your CommBiz service.

4.2 Notification

You must immediately notify us if:

- there has been any actual or suspected loss, theft, misuse, misplacement or compromise of your or any of your User’s computer systems or hardware used by you or your Agent to access CommBiz or your Private Keys or your User’s NetLock Security Device, token (including any PIN codes used to generate a token password) or password.
- your private key details have been disclosed to any person or entity other than us or your User;
- You suspect a transaction has been altered without your approval or is unauthorised.
- there has been an actual or suspected breach of your obligations regarding Confidential Information;
- your personal details or business details have changed;
- your Agent’s personal details or business details have changed; or
- a mobile device linked to your CommBiz service is lost, stolen or misplaced or the mobile device is changed;
- there has been any actual or suspected compromise of your mobile device; or
- you no longer authorise an Authoriser to conduct Transactions on your behalf.

4.3 Providing information

You must provide accurate information to us regarding your keys and Digital Certificates when requested.

4.4 Changing passwords

We will give you instructions to enable you to change your passwords. It’s your responsibility to change your passwords regularly.

4.5 Cancelling Security Identification or withholding access

If we reasonably believe that your Security Identification is being used in a way that may cause losses to you or us or that the security of your personal computer or network or mobile device is compromised or that the security or reliability of our systems are compromised or threatened, or a

payment file sent by you, or on your behalf, is corrupted; or your payment instructions are at risk of having been altered without your approval; we can:

- cancel your use of Security Identification
- withhold access to CommBiz or CommBiz Mobile
- vary the maximum amounts you can transfer at any one time or within any period
- refuse to act on your instructions

We can do these things at any time, without notice.

4.6 Tokens

Users can authorise transactions with a token that generates a 'token password'. The token issues a new password approximately every 30 seconds that can only be used once in that time.

Every person authorising transactions, or carrying out an administrative role, must have a personal security token.

4.7 NetLock Security Device

The NetLock Security Device is a further level of security using a USB device which contains an internet browser locked to Bank websites. It also utilises Public Key Infrastructure (PKI) technology hosted by IdenTrust Inc and uses Digital Certificates and keys to identify Customers and exchange information as an additional layer of security.

Users must be identified to our satisfaction before we issue their NetLock Security Device.

Once a user commences using the NetLock Security Device, that user cannot access the CommBiz service (including authorising transactions or viewing information) unless they use their NetLock Security Device as part of their Security Identification.

We will issue rules or manuals explaining how to use and operate the NetLock Security Device on the CommBiz website. We may change these rules or manuals from time to time. If we do this, we will publish a notification on the CommBiz website or send you a written notice.

You can only use a NetLock Security Device to operate CommBiz and you must not store information on it or use it for any other purpose.

You agree to allow us at any time to update the information and software stored on the NetLock USB which remains our property at all times.

Refer to section 18 for NetLock Security fees and charges.

4.8 Transacting

We will only process payments when we have received each authoriser's password and a 'token password' generated by their personal security token. Apart from CommBiz Mobile, if you have agreed to the NetLock Security Device, the User must also be using their NetLock Security Device.

4.9 Deemed authority

You are liable for the acts or omissions of all users.

You agree that we can treat any transaction made or instructions given using your Security Identification as being made with your authority, subject to clauses, 4.11, 5.3 and 5.6. You are responsible for the accuracy of instructions given using your Security Identification. We don't

Part 4: Security

have to verify your authority unless you've told us to cancel that Authoriser's Security Identification before the transaction.

4.10 Safekeeping

You are responsible for:

- a) ensuring that your NetLock Security Device, tokens (including any PIN codes used to generate a token password), passwords and, if applicable your Mobile Devices, at all times kept physically secure and in accordance with our instructions and directions from time to time;
- b) ensuring that your Private Keys are, at all times, kept: safely and securely and in accordance with our instructions and directions from time to time and are not disclosed to any other entity or person, except your Users.

4.11 Additional protection

If you suffer Losses as a result of the unauthorised alteration by persons who are not your agents, officers or employees of any transaction in CommBiz, we will reimburse you the value of any unrecovered payment up to the maximum payment amounts specified in the applicable payment bands in the table following and provided that all the following conditions are satisfied at all relevant times:

- you had taken all applicable mandatory precautions set out in the table following to prevent unauthorised users gaining access to your computer systems and to your mobile devices and transacting on your accounts; and
- you used NetLock Security Devices or CommBiz Mobile when creating or approving the transaction; and
- the payment has been executed in accordance with the applicable EMOO process set out in the right hand column of the table following for the amount of the payment; and
- you were not and are not in breach of the CommBiz Terms and conditions; and
- you give us and our agents prompt and complete access to computers, and any mobile devices, of your Users in use at the time of the transaction and any other assistance or information we reasonably request to enable a full investigation in connection with any unauthorised alteration of the transaction and of your claim; and
- you notify us that the transaction was altered or unauthorised within 12 months of the date of the transaction being debited to your account.

If you notify us of any unauthorised alteration of the transaction you must retain all computers and any mobile devices of your Users and all other records and information reasonably required to enable a full investigation of your claim.

Part 4: Security

4.12 Prohibited transactions

You must not enter into a transaction

- a) prohibited by law; or
- b) if you are acting as agent for a principal that has not been disclosed to us.

4.13 CommBiz Mobile

If you use CommBiz Mobile, this clause applies in addition to all other relevant terms. You acknowledge that when you apply for CommBiz, all identified Users will be automatically enabled for CommBiz Mobile access. You must only use CommBiz Mobile through your compatible mobile device and must also enter your Security Identification. Each user can only use CommBiz Mobile through a maximum of two compatible mobile devices registered with us to that User. A User can only use two mobile devices at a time and cannot access CommBiz through a computer while accessing CommBiz Mobile.

You are responsible for downloading to your mobile device all software needed to use CommBiz Mobile from the website approved by us.

We may from time to time update the software needed to use CommBiz Mobile (for example to enhance security or to provide additional features). We may require you to download the latest software from the website approved by us to your mobile device before you can continue to use CommBiz Mobile. We may prevent you from using CommBiz Mobile if you have overridden the software lockdown on your mobile device.

You are responsible for any charges imposed by your telecommunications provider for connecting to CommBiz Mobile on your mobile device, including call costs and data costs associated with browsing the internet.

If you are locked out from CommBiz by us for any reason (for example, if you have made too many unsuccessful attempts to input your password) you will be unable to access CommBiz Mobile until your Security Identification is reinstated.

You must take adequate precautions to prevent unauthorised users gaining access to your CommBiz Mobile service or your mobile device. If you fail to take adequate precautions it is possible that unauthorised persons may alter your instructions or give us instructions using your Security Identification. You are liable for any such altered or unauthorised instructions except where clause 5.3 or 5.6 applies.

We set restrictions on the types of transactions which can be authorised through CommBiz Mobile (for example we can restrict transfers to payments to your other linked accounts or to an account listed on your existing payee address book).

You must not leave your mobile device unattended and left logged into CommBiz Mobile. You must lock your mobile device using a password known only to you and take other steps reasonably necessary to stop unauthorised use of CommBiz Mobile.

We issue rules or manuals on the CommBiz website explaining how to use and operate CommBiz Mobile. We may change these rules or manuals from time to time. If we do this, we will publish a notification on the CommBiz website or send you a notice.

4.14 Transaction Holds

For security reasons we may place a hold on funds transferred to or from your account through CommBiz. The hold may apply for as long as we reasonable need to investigate the transaction. We will make reasonable attempts to contact you and resolve such matters.

Part 5: EFT transactions

5.1 What is an EFT Transaction?

An EFT Transaction is a funds transfer, either from or to an account of yours with us which is not a 'business account' initiated by the giving of an instruction. A 'business account' is one that is designed primarily for use by a business and established for business purposes. Clauses 5.1 to 5.8 inclusive only apply to EFT Transactions.

5.1.1 Applying the ePayments and ePayments Code

We will comply with the provisions of the ePayments Code applying to EFT Transactions.

5.2 What is an unauthorised EFT transaction?

An unauthorised EFT transaction is one which you or your nominated authorisers have not authorised. An EFT transaction that you make, or that someone else makes with your consent, is not an unauthorised EFT transaction. An EFT transaction carried out by an Authoriser is not unauthorised unless you instructed us to cancel their Security Identification before the transaction.

5.3 When you are not liable for loss

You are not liable for any loss from an unauthorised EFT transaction that:

- a user did not contribute to
- arises after you've told us that any passwords, tokens (including any PIN codes used to generate a token password) or NetLock Security Device forming part of the Security Identification has been misused, lost or stolen, or that the security of passwords forming part of the Security Identification has been breached
- is caused by any act, or fraudulent or negligent conduct of any of our employees or agents
- results from any device which is part of your Security Identification being forged, faulty, expired or cancelled
- arose from EFT transactions made before you or another user received a token, NetLock Security Device or password forming part of your Security Identification
- is caused by the same EFT transaction being incorrectly debited more than once to your account.

5.4 When you are liable for loss

If we can prove on the balance of probability that you contributed to the loss, you are liable for losses from unauthorised EFT transactions that occur when the Security Identification is compromised.

Your Security Identification is said to be compromised when:

- a device forming part of a Security Identification has been misused, lost or stolen
- the security of a password forming part of the Security Identification has been breached.

5.4.1 Unreasonable delay

You are liable if the loss resulted from your unreasonable delay in telling us once you became aware that the Security Identification was compromised or that your mobile device is lost or stolen.

5.4.2 Fraud and disclosure

You are liable if the loss resulted from any user:

- committing fraud
- voluntarily disclosing their password

Part 5: EFT transactions

- acting with extreme carelessness in failing to protect the security of all their passwords
- recording one or more of the passwords on the outside of a security device
- keeping a record of one or more of the passwords (without making any reasonable attempt to protect the security of the passwords, such as making a reasonable attempt to disguise the password within another record, hiding the record of the password where it would not be expected to be found, keeping the record of the password in a securely locked container or in password protected device)) on the one article, or on several articles, carried with the security device, or likely to be lost or stolen with the device.

5.4.3 Choice of passwords

You are liable if we have specifically told a user not to choose a password that represents their date of birth or their name, and they have done so anyway.

5.5 What you are liable for

Where any of the circumstances in clause 5.4 apply, you are liable for losses that occur before we are notified that the Security Identification has been compromised,.

Where none of the circumstances in clause 5.4 apply and a password was required for the unauthorised EFT transaction, you are liable for the least of:

- \$150
- the balance of the accounts from which value was transferred in the unauthorised EFT transactions and which we had agreed with you were accessible using the Security Identification (including any pre-arranged credit)
- the actual loss at the time that we are notified that the Security Identification has been compromised (where relevant).

5.6 What you are not liable for

You are not liable for:

- any amount higher than the balance of the account
- losses from accounts which we had not previously agreed were accessible using the Security Identification.

5.7 Mistaken payment

If, after you give us instructions to make a payment, you discover that the account to which you told us to make the payment was incorrect or was not your intended recipient's you can contact us to seek a refund. We will attempt to recover the funds on your behalf but we are not liable unless we fail to comply with the process set out on the next page.

We will acknowledge receipt of your report and provide you with a reference number which you can use to verify that your report has been recorded by us and to enquire about progress of your claim.

Once we have the information we require and are satisfied that you have made a mistaken payment, we will send a request for return of the funds to the recipient's financial institution. Where your report is made within 10 business days of the mistaken payment and the unintended recipient has sufficient credit funds in their account, we may be able to take advantage of industry rules which allow us to recover the funds for you with the unintended recipient's consent.

We will advise you in writing of the outcome of the request within 30 business days of receiving the information from you.

5.8 Making a complaint

If you make a complaint which is subject to the ePayments Code, including an unauthorised EFT Transaction or a mistaken payment, we will make a record and give you our name, a reference number and contact details so that you can follow up if you want to. Within 21 days will provide a response to the complaint or advise you of the need for more time to complete our investigation. If we are unable to provide a final response to your complaint within 45 days, we will:

- inform you of the reasons for the delay and when we reasonably expect a decision;
- thereafter give you monthly progress updates;
- advise of your right to complain to the Australian Financial Complaints Authority (AFCA); and
- provide you with AFCA contact details.

Part 6: BPAY

6.1 Making BPAY payments

You can make individual BPAY payments from all debits accounts (excludes Foreign Currency Accounts), including credit card accounts.

Your instruction to us to make a BPAY payment must include the:

- Biller Code that appears on the bill or invoice
- Customer Reference Number that appears on the bill or invoice
- debit account number
- account for returned items (trace account)
- payment amount
- payment date.

If you don't give us all of this information, or if any of it is inaccurate or incomplete, we don't have to transfer the money.

6.2 Payment errors

If a biller receives a payment made by mistake or in error, this payment is not considered part or whole payment of any debt you owe them.

6.3 Suspension

We can suspend your right to participate in the BPAY Scheme if you breach these Terms and conditions, or if you or someone acting on your behalf is suspected of engaging in fraudulent conduct.

6.4 When a biller can't process a payment

If a biller tells us that they can't process your payment, we will:

- tell you
- credit your trace account with the payment amount
- take all reasonable steps to help you make the payment as quickly as possible.

6.5 Batch Entry payments

If you make Batch Entry payments, you agree:

- every Batch Entry payment you make will be authorized
- not to make Batch Entry payments from credit card accounts.
- promptly notify us if you become aware, or reasonably suspect that a Batch Entry payment has been erroneously submitted or processed.

If you make Batch Entry payments on behalf of your End Clients, you must:

- make any disclosures to, and obtain any consents from, those End Clients that are necessary to enable:
 - a. us to comply with our obligations under BPAY Payment Scheme rules;
 - b. you to comply with your obligations under the conditions outlined in this document.
- maintain a list of your End Clients, and provide that list to us upon request;
- maintain systems and processes which allow payments and adjustments (including credits and reversals) in relation to those End Clients to be separately identified and differentiated;
- ensure those End Clients make payments only for their own benefit and not on behalf of a third party;
- promptly notify us if you become aware, or reasonably suspect, any fraudulent or illegal activity involving payments made by those End Clients; and
- ensure that each Batch Entry payments given on behalf of an End Client is validly authorized by that End Client.

6.6 BPAY payments can't be stopped

We will not accept a request to stop a BPAY payment once you have instructed us to make it.

6.7 Underpayments

You must be careful to ensure you tell us the correct amount you want to pay. If you instruct us to make a BPAY payment and you later discover that the amount you told us to pay was less than the amount you needed to pay, you can make another BPAY payment for the difference.

6.8 Mistaken, unauthorised and fraudulent BPAY payments

We will try to ensure that your BPAY payments are processed promptly by the participants in the BPAY Scheme, including billers to whom your BPAY Payments are to be made.

You must tell us immediately if you:

- become aware of any delays or mistakes in processing your BPAY payments
- did not authorise a BPAY payment that has been made from your account
- think that you have been fraudulently induced to make an BPAY payment.

We will try to fix any problems like this, but we are not liable for any loss or damage you suffer as a result of using the BPAY Scheme, including any delay by other participants in processing BPAY payments.

6.8.1 Your liability for mistaken BPAY payments

If we make a BPAY payment to a person or for an amount, which is not in accordance with your instructions (if any), and your account was debited for the amount of that payment, we will credit that amount to your account.

If you were responsible for a mistake causing that payment and we can't recover the payment from the person who received it within 20 business days, you must pay us that amount. We can debit your account with the amount previously credited.

6.8.2 Your liability for fraudulent BPAY payments

If a BPAY payment is induced by the fraud of a person involved in the BPAY Scheme, then that person should refund you the amount of the fraud-induced payment.

If that person doesn't refund payment, you must bear the loss unless some other person involved in the BPAY Scheme knew of the fraud or would have detected it with reasonable diligence. In that case, that person must refund you the amount of the fraud-induced payment.

If a BPAY payment could be considered to be either mistaken or induced by fraud, we will consider it to be fraudulent.

6.8.3 Your liability for unauthorised BPAY payments

If we make a BPAY payment in accordance with a payment direction, which appeared to us to be from you, but which you did not authorise, we will credit your account with the amount of that unauthorised payment.

If we subsequently can't recover that amount within 20 Business Days from the person who received it, you must pay us the amount of that unauthorised payment.

6.9 Consent for biller to disclose information

If you tell us that a BPAY payment made from your account is unauthorised, you must give us your written consent, addressed to the biller who received the payment, allowing us to obtain from that biller any information we reasonably need to investigate the transaction. If you don't give us this consent, the biller may choose not to disclose to us the information we need to investigate or fix the payment.
