What is the Farm Management Deposit (FMD) scheme?

The Farm Management Deposit scheme (FMD scheme) was established by the Federal Government to provide a cash flow management tool that complements other risk management options by allowing *primary producers* to set aside pre-tax primary production income in profitable years to help balance income between good and bad times. The scheme provides tax benefits if deposits in the FMD are kept for a minimum of 12 months. The money deposited can be withdrawn in later years when you need it, often in a lower income, lower tax year.

To be eligible for the scheme and to maintain FMD status, *primary producers* and deposits must meet the criteria specified in the *Income Tax Assessment Act 1997* including the *Income Tax Assessment (1997 Act) Regulations 2021* and those outlined in the Terms and Conditions section of this document. For further details on eligibility criteria refer to the *Farm Management Deposits Laws* and to the ATO Farm Management Deposits or visit the Department of Agriculture, Fishery and Forestry website at agriculture.gov.au.

What is an FMD Account?

An FMD Account is an investment product offered by the Bank that allows *primary producers* to take advantage of the benefits of the FMD scheme. Pre-tax primary production income in profitable years can be set aside in an FMD Account and is available for withdrawal in less profitable years. Funds held in an FMD Account may be deducted from your assessable income in the year in which the deposit is made, and are considered assessable income in the year of withdrawal.

What investment options are available?

- **At Call FMD Account:** Your money is readily available and the interest rate that you earn is determined by the Bank with reference to prevailing market interest rates and the balance of your At Call FMD Account (refer to Clause 13 in the Terms and Conditions). Each deposit made to your At Call FMD Account must be held for a minimum of 12 months. Withdrawals from a deposit may disqualify the deposit from taxation benefits of the FMD scheme if the deposit is held for less than 12 months.

General Information

- **Fixed Term FMD Account:** You can earn interest at a fixed rate for a *term* of 3, 6, 9 and 12 to 24 months (inclusive). Withdrawals at or in advance of maturity may disqualify the deposit from taxation benefits of the FMD scheme if the deposit is held for less than 12 months. If you think you may have a need to immediately access your money, the At Call FMD Account or other savings accounts may be more suitable.

Who is an FMD Account suitable for?

Situations in which an FMD Account may be appropriate are:

- you are a *primary producer* and are eligible under the FMD scheme; and
- you have \$1,000.00 or more to invest.

You can check with the Australian Taxation Office (ATO) by calling **13 2866** if you are uncertain of your status as a *primary producer*.

How do you open an FMD Account?

FMD Accounts are only available to *primary producers*. An FMD Account can be opened by completing the application form. This form is available from your relationship manager or any branch of the Bank.

When opening your FMD Account, the minimum opening deposit for an At Call FMD Account is \$1,000.00 and the minimum lodgement amount for a Fixed Term FMD Account is \$1,000.00.

After you have opened an FMD Account, the Bank will provide you with a confirmation of your deposit.

How does an FMD Account work?

You may hold more than one FMD Account with the Bank, but the aggregate balance of all *accounts* must not exceed \$800,000.00. You may hold more than one FMD Account across *FMD providers*, but the aggregate balance of all FMD Accounts held with all *FMD providers* must not exceed \$800,000.00.

Deposits, withdrawals or transfers can be made through your relationship manager or any branch of the Bank.

Additional deposits may be made to an existing FMD Account, but each deposit must be held for a minimum period of 12 months in order to qualify under the FMD scheme (except under the circumstances outlined

General Information

in Clause 3 of the Terms and Conditions). Additional deposits must be for a minimum amount of \$1,000.00. You are required by the *Farm Management Deposits Law* to read the mandatory statement contained within the "Application for Farm Management Deposit (FMD)" form, prior to opening an FMD Account.

Withdrawals must be for a minimum of \$1,000.00 (except when the entire amount of a farm management deposit is repaid). You must complete an "Application for Farm Management Deposit (FMD) – Withdrawal/Account Closure" form. For withdrawals from At Call FMD Accounts, please refer to Clause 12 of the Terms and Conditions in this document for further details. If you need to withdraw some or all of your Fixed Term FMD Account funds prior to maturity, please refer to Clause 20 of the Terms and Conditions.

Transfer of the balance of a farm management deposit can be made to and from other *FMD providers* and the Bank, subject to the conditions contained in Clause 4 and Clause 20 (as applicable) of the Terms and Conditions in this document. You must complete an "Application to Transfer Farm Management Deposit (FMD) to Other Financial Institution" form (for transfers from the Bank) or "Application to Accept Transferred Farm Management Deposit (FMD)" form (for transfers to the Bank).

Fixed Term FMD Accounts at maturity

The Bank will seek your instructions for renewal or redemption prior to or on the *maturity date*. You may contact the Bank prior to the *maturity date* of your Fixed Term FMD Account, to request a withdrawal of funds at maturity or to specify how the funds are to be reinvested or renew the term of your Fixed Term FMD Account at maturity, in NetBank or the CommBank app. Should you wish to reinvest your funds at maturity, you should have a minimum balance of \$1,000.00 on the date of renewal of your Fixed Term FMD Account.

If, on the *maturity date*, we have not received your instructions and provided the minimum balance requirement is met, we will automatically reinvest the funds for you at the prevailing interest rate on that day, for the same *term*, and on the terms and conditions then applying to new Fixed Term FMD Accounts. If you wish to withdraw your funds or make a change (including to

General Information

add additional funds), you will have a grace period of seven calendar days from the *maturity date* to provide your alternative instructions without incurring a fee or incurring a reduction of interest rate. You can provide your instructions by contacting your relationship manager or any branch of the Bank.

What are the key benefits and disadvantages of an FMD Account?

Benefits include:

- the opportunity to carry-over before-tax income from years when it is least needed to years when it is most needed;
- tax benefits if a deposit is held for 12 months or longer;
- no account keeping fees directly applicable;
- funds can be held *at call* or for a fixed *term*;
- when you select an At Call FMD Account the interest rate that you receive may rise if market interest rates rise; and
- when you invest in a Fixed Term FMD Account, you are protected from falling interest rates during the *term* of your investment.

Disadvantages include:

- when you select an At Call FMD Account the interest rate that you receive may fall if market interest rates fall;
- if you hold monies under the FMD scheme, prior to 1 July 2012, they must all be held at the same *FMD provider* at any one time; and
- when investing in a Fixed Term FMD Account you cannot benefit from increases in interest rates that may occur during the *term* of the Fixed Term FMD Account as your interest rate is fixed for the *term*. Also, you will not be able to immediately access your funds in a Fixed Term FMD account.

You should ensure that you are able to monitor and value any interest rate movements when investing in an FMD Account. The Bank may be dealing on its own account in interest rate markets and such dealings may influence interest rates.

How is interest calculated?

Interest is calculated on your At Call FMD Account and your Fixed Term FMD Account using the simple interest formula:

$$\text{Interest} = \text{amount invested} \times \frac{\text{rate \% per annum}}{100} \times \frac{\text{number of days}}{365}$$

Example 1* – illustrative purposes only

You open an At Call FMD Account for \$50,000.00 on 1 April. The Bank quotes an interest rate of 4.50% per annum on your At Call FMD Account. The first interest payment will be 1 June.

The interest is calculated as follows:

Interest earned from 1 April to 31 May (inclusive)

$$\begin{aligned} &= \$50,000.00 \times 4.50\% \times \frac{61}{365} \\ &= \$376.03 \end{aligned}$$

Total interest earned on your At Call FMD Account and paid to your nominated bank account on 1 June is \$376.03.

In terms of payment frequency, interest is paid for At Call and Fixed Term FMD Accounts in accordance with Clause 13 and 18 of the Terms and Conditions respectively. Interest must be paid to a *nominated bank account* other than your FMD Account.

What are the costs involved in an FMD Account?

There are no direct account keeping fees, however, other fees may apply. Refer to Appendix A for more information on Bank fees and Government taxes.

What if I want to withdraw before maturity from a Fixed Term FMD Account?

When investing in a Fixed Term FMD Account, you agree to invest your funds for a fixed term at a fixed interest rate. Should you require all or part of your funds prior to the maturity date you will need to give the Bank 31 days' notice by contacting your relationship manager or any branch of the Bank. A prepayment administration fee and prepayment interest adjustment may apply. The

* The example assumes that the interest rate applied does not change during the period. Details of current rates are available on request.

General Information

prepayment interest adjustment applied will depend on the percentage of the original *term* elapsed. The notice period starts on the day you request withdrawal and, subject to Clause 20 of the Terms and Conditions in this document, funds will be credited to your nominated Commonwealth Bank statement account on day 32. Subject to Clause 20 of the Terms and Conditions in this document, payments to accounts at other *financial institutions*, whilst effected on the payment date, may not be credited to that other account until the other *financial institution* processes this transaction. More information is provided in Clause 20 of the Terms and Conditions.

If you are experiencing hardship and need your funds immediately, please contact your relationship manager or any branch of the Bank.

Table 2 details the adjustments to be applied to your interest rate for withdrawals in advance of maturity:

Table 2: Adjustment to be applied

Percentage of <i>term</i> elapsed	Adjustment to be applied as a % of your interest rate
0% to less than 20%	90%
20% to less than 40%	80%
40% to less than 60%	60%
60% to less than 80%	40%
80% to less than 100%	20%

For example, if your funds are invested for 25% of the agreed *term*, the interest to date will be adjusted by 80%.

Example 2 – for illustrative purposes only

You lodge a 24 month Fixed Term FMD Account for \$100,000.00 on 1 January, at an interest rate of 5.00% per annum with a Six Monthly interest payment option. On 1 December after approximately 11 months, you provide a 31 days' notice request to withdraw the entire \$100,000.00 with funds to be credited into your At call FMD Account on 1 January.

General Information

Calculating the interest earned

The interest paid to your *nominated bank* account on 1 July is calculated as follows:

Interest earned from 1 January to 30 June (Inclusive)

$$\begin{aligned} &= \$100,000.00 \times 5.00\% \times \frac{181}{365} \\ &= \$2,479.45 \end{aligned}$$

The interest owing to you (but not yet paid) on the following 1 January, is calculated as follows:

Interest earned from 1 July to 30 June (Inclusive)

$$\begin{aligned} &= \$100,000.00 \times 5.00\% \times \frac{184}{365} \\ &= \$2,520.55 \end{aligned}$$

Calculating the prepayment interest adjustment

The percentage of the *term* elapsed is calculated as follows:

$$\begin{aligned} \text{Percentage of term elapsed} &= \frac{\text{number of days deposited}}{\text{number of days in term}} \times 100 \\ &= \left(\frac{365 \text{ days}}{730 \text{ days}} \right) \times 100 \\ &= 50\% \end{aligned}$$

As 50% of the original *term* has elapsed, an adjustment of 60% will apply (refer to Table 2).

$$\begin{aligned} \text{Interest rate adjustment} &= \text{adjustment} \times \text{your interest rate} \\ &= 60\% \times 5.00\% \text{ per annum} \\ &= 3.00\% \text{ per annum} \end{aligned}$$

$$\begin{aligned} \text{Prepayment interest adjustment} &= \text{amount invested} \times \frac{\text{number of days deposited}}{365} \times \text{interest rate adjustment} \\ &= \$100,000.00 \times \left(\frac{365}{365} \right) \times 3.00\% \\ &= \$3,000.00 \end{aligned}$$

General Information

Calculating the interest paid

On the withdrawal date 1 January, the Bank owes you an interest payment of \$2,520.55 (as \$2,479.45 has already been paid to you). This amount and the \$100,000.00 withdrawn by you will be paid to you. The prepayment interest adjustment amount of \$3,000.00 and the prepayment administration fee will be collected from you separately.

Note: The total amount paid to you on the withdrawal date, plus all previous interest payments will always be equal to or more than your original investment amount (excluding the prepayment administration fee).

Are there any tax implications to be aware of?

The FMD scheme allows for the deduction of any FMD Account holdings from your assessable income for the year in which the deposit is made. However, the amount of the deductions cannot exceed your taxable primary production income for the year.

Under the Pay As You Go system, as the FMD owner you may reduce your instalment income for an instalment period by the amount of Farm Management Deposits made during that period. The reduction is limited to the amount that you can reasonably expect to deduct for the deposit for the income year in which the deposit is made. However, the instalment income for the period cannot be reduced below nil. When you withdraws funds from a Farm Management Deposit in an instalment period, the instalment income of the period will include the amount of the withdrawal. Your instalment income will only include so much of the withdrawal as will be included in your assessable income for the income year in which the withdrawal is made.

If you do not adhere to the rules that govern the FMD scheme including if you withdraw a deposit within 12 months of deposit (except in the circumstances outlined in Clause 3 of the Terms and Conditions), you may not qualify for the tax benefits associated with holding an FMD. You may have to seek an amended tax assessment for the relevant year in which a deduction was claimed.

Investment income in the form of interest earned on an FMD Account is generally assessable income.

General Information

The *Bank* is authorised under the taxation laws to collect a Tax File Number (TFN), an Australian Business Number (ABN) or an exemption code. It is not an offence if you don't provide a TFN, an ABN or an exemption code, but by law, we may be required to withhold a portion of your interest earned on the account and on any amount withdrawn from the *account*.

Interest paid and any amount withdrawn from the *account* may also be subject to withholding tax at the maximum marginal rate (plus the Medicare levy).

Investing and dealing with investments has tax and often social security implications. These can be complex and are invariably particular to your circumstances. You should discuss the timing and derivation of income and any other tax issues with your independent professional tax adviser.
