## Part 1: General Information

### General Information

This document aims to provide you with enough information to help you decide whether the product will meet your needs. It also helps you to compare the product with others you may be considering.

This document provides general information and the terms and conditions for the **Farm Management Deposit Account** (FMD Account). If you decide to invest in an FMD Account, you should keep this document and all other documentation relating to your FMD Account for future reference.

If you have any questions or wish to contact us you can call AgriLine on **1300 772 968** between 7am and 7pm (Sydney time), Monday to Friday, visit our web site at **commbank.com.au**, call into any branch of the Commonwealth Bank of Australia (the Bank) or contact your relationship manager.

To assist you in understanding the Terms and Conditions, the definitions of some words are provided in the “Definitions” section on page 26. These words usually appear in *italics* in this document.

### What is the Farm Management Deposit (FMD) scheme?

The Farm Management Deposit scheme (FMD scheme) was established by the Federal Government to provide a cash flow management tool that complements other risk management options by allowing *primary producers* to set aside pre-tax primary production income in profitable years to help balance income between good and bad times. The scheme provides tax benefits if deposits in the FMD are kept for a minimum of 12 months. The money deposited can be withdrawn in later years when you need it, often in a lower income, lower tax year.

To be eligible for the scheme and to maintain FMD status, *primary producers* and deposits must meet the criteria specified in the Income Tax Assessment Act 1997 and those outlined in the Terms and Conditions section of this document. For further details on eligibility criteria refer to the *Farm Management Deposits Law* or visit the Department of Agriculture and Water Resources website at **agriculture.gov.au**.

# Part 1: General Information

## What is an FMD Account?

An FMD Account is an investment product offered by the Bank that allows *primary producers* to take advantage of the benefits of the FMD scheme. Pre-tax primary production income in profitable years can be set aside in an FMD Account and is available for withdrawal in less profitable years. Funds held in an FMD Account may be deducted from your assessable income in the year in which the deposit is made, and are considered assessable income in the year of withdrawal.

## What investment options are available?

- **At Call FMD Account:** Your money is readily available and the interest rate that you earn is determined by the Bank with reference to prevailing market interest rates and the balance of your At Call FMD Account (refer to Clause 11 in the Terms and Conditions). Each deposit made to your At Call FMD Account must be held for a minimum of 12 months. Withdrawals from a deposit may disqualify the deposit from taxation benefits of the FMD scheme if the deposit is held for less than 12 months.
- **Fixed Term FMD Account:** You can earn interest at a fixed rate for a *term* of 3, 6, 9 and 12 to 24 months. Withdrawals at or in advance of maturity may disqualify the deposit from taxation benefits of the FMD scheme if the deposit is held for less than 12 months. If you think you may have a need to immediately access your money, the At Call FMD Account or other savings accounts may be more suitable.

## Who is an FMD Account suitable for?

Situations in which an FMD Account may be appropriate are:

- you are a *primary producer* and are eligible under the FMD scheme; and
- you have \$1,000.00 or more to invest.

## At Call FMD Account interest rate tiers

Interest rates on your At Call FMD Account are tiered according to the balance of the account as follows:

Table 1: Balance tiers
\$1,000.00 to \$29,999.99
\$30,000.00 to \$99,999.99
\$100,000.00 to \$800,000.00

## Part 1: General Information

When the balance reaches a different tier, interest is calculated at the new tier rate on the whole of the balance.

No interest will be paid for any period in which the balance of your At Call FMD Account falls below \$1,000.00.

### **How does an FMD Account work?**

FMD Accounts are only available to *primary producers*. You can check with the Australian Taxation Office (ATO) by calling **13 2866** if you are uncertain of your status as a *primary producer*.

The minimum opening deposit for an At Call FMD Account is \$1,000.00.

The minimum lodgement for a Fixed Term FMD Account is \$1,000.00, and *terms* of 3, 6, 9 and 12 to 24 months are available. *Terms* are available in whole months only.

You may hold more than one FMD Account with the Bank, but the aggregate balance of all *accounts* must not exceed \$800,000.00. Effective 1 July 2012, you may hold more than one FMD Account across *financial institutions*, but the aggregate balance of all FMD Accounts held with all financial institutions must not exceed \$800,000.00.

Deposits can be made through your relationship manager or any branch of the Bank. Additional deposits may be made to an existing FMD Account, but each deposit must be held for a minimum period of 12 months in order to qualify under the FMD scheme (except under the circumstances outlined in Clause 3 of the Terms and Conditions). Additional deposits must be for a minimum amount of \$1,000.00. You are required by the *Farm Management Deposits Law* to read the mandatory statement contained within the "Application for Farm Management Deposit (FMD)" form, prior to opening an FMD Account.

Withdrawals must be for a minimum of \$1,000.00 (except when closing an FMD Account) and can be made through your relationship manager or at the branch where you opened your FMD Account. You must complete an "Application for Farm Management Deposit (FMD) – Withdrawal/Account Closure" form which is available from your relationship manager or any branch of the Bank. If you need to withdraw some or all of your Fixed Term FMD Account funds prior to maturity, please refer to Clause 18 of the Terms and Conditions.

## Part 1: General Information

Transfer of your FMD Account can be made to and from other *financial institutions* and the Bank, subject to the conditions contained in Clause 4 of the Terms and Conditions. You must complete an “Application to Transfer Farm Management Deposit (FMD) to Other Financial Institution” form (for transfer from the Bank) or “Application to Accept Transferred Farm Management Deposit (FMD)” form (for transfers to the Bank). These forms are available from your relationship manager or any branch of the Bank.

### How is interest calculated?

Interest is calculated on your At Call FMD Account and your Fixed Term FMD Account using the simple interest formula:

$$\text{Interest} = \frac{\text{amount invested}}{\text{rate \% per annum}} \times \frac{\text{number of days}}{365}$$

Interest is paid in accordance with Clauses 11 and 16 of the Terms and Conditions and must be paid to a *nominated bank account* other than your FMD Account.

#### Example 1\*

You open an At Call FMD Account for \$50,000.00 on 1 April. The Bank quotes an interest rate of 4.50% per annum on your At Call FMD Account. The first interest payment will be 1 June.

The interest is calculated as follows:

$$\begin{aligned} & \text{Interest earned from 1 April to 31 May (inclusive)} \\ & = \$50,000.00 \times 4.50\% \times \frac{61}{365} \\ & = \mathbf{\$376.03} \end{aligned}$$

Total interest earned on your At Call FMD Account and paid to your *nominated bank account* on 1 June is \$376.03.

\* Examples are used for illustrative purposes only. The example assumes that the interest rate applied does not change during the period. Details of current rates are available on request.

## Part 1: General Information

### **Interest Payment Options for Fixed Term FMD Accounts**

Interest on your Fixed Term FMD Account is paid to you with the choice of the following frequencies:

**Six Monthly:** Interest is paid every 6 months and at maturity. For terms of 3 or 6 months, interest is paid at maturity.

**Annual:** Interest is paid every 12 months and at maturity; available for terms from 12 months up to 24 months.

### **Fixed Term FMD Accounts at maturity**

The Bank will seek your instructions for renewal or redemption approximately one week prior to or on the *maturity date*. You may contact the Bank at any time prior to the *maturity date* of your Fixed Term FMD Account, to request a withdrawal of funds at maturity or to specify how the funds are to be reinvested. Should you wish to reinvest your funds at maturity, you should have a minimum balance of \$1,000.00 on the date of renewal of your Fixed Term FMD Account.

If, on the *maturity date*, we have not received your instructions and provided the minimum balance requirement is met, we will automatically reinvest the funds for you at the prevailing interest rate on that day, for the same *term*, and on the terms and conditions then applying to new Fixed Term FMD Accounts. If you wish to withdraw your funds or make a change, you will have a grace period of seven calendar days from the maturity date to provide your alternative instructions without incurring a fee or incurring a reduction of interest rate. You can provide your instructions by contacting your relationship manager or any branch of the Bank.

### **Withdrawals in advance of maturity from a Fixed Term FMD Account**

When investing in a Fixed Term FMD Account, you agree to invest your funds for a fixed *term* at a fixed interest rate. Should you require all or part of your funds prior to the *maturity date* you will need to give the Bank 31 days' notice by contacting your relationship manager or any branch of the Bank. A prepayment interest adjustment and prepayment administration fee may apply. The prepayment interest adjustment applied will depend on the percentage of the original *term* elapsed. The notice period starts on the day you request withdrawal and funds will be credited to your nominated Commonwealth Bank statement account on day 32, (or the next/following business day if day 32 is a non-

# Part 1: General Information

business day). More information is provided in Clause 18 of the Terms and Conditions.

If you are experiencing extreme hardship and need your funds before maturity, please contact your relationship manager or any branch of the Bank.

Unless you request full repayment of your funds, you are required to keep a minimum balance of \$1,000.00 in the account at all times.

Table 2 details the adjustments to be applied to your interest rate for withdrawals in advance of maturity:

**Table 2: Adjustment to be applied**

Percentage of <i>term</i> elapsed	Adjustment to be applied as a % of your interest rate
0% to less than 20%	90%
20% to less than 40%	80%
40% to less than 60%	60%
60% to less than 80%	40%
80% to less than 100%	20%

For example, if your funds are invested for 25% of the agreed *term*, the interest to date will be adjusted by 80%.

### Example 2 – for illustrative purposes only

You lodge a 24 month Fixed Term FMD Account for \$100,000.00 on 1 January, at an interest rate of 5.00% per annum with a Six Monthly interest payment option. On 1 December after approximately 11 months, you provide a 31 days' notice request to withdraw the entire \$100,000.00 with funds to be credited into your At call FMD Account on 1 January.

### Calculating the interest earned

The interest paid to your *nominated bank account* on 1 July is calculated as follows:

$$\begin{aligned} & \text{Interest earned from 1 January to 30 June (inclusive)} \\ &= \$100,000.00 \times 5.00\% \times \frac{181}{365} \\ &= \mathbf{\$2,479.45} \end{aligned}$$

## Part 1: General Information

The interest owing to you (but not yet paid) on the following 1 January, is calculated as follows:

$$\begin{aligned} & \text{Interest earned from 1 July to 31 December (inclusive)} \\ &= \$100,000.00 \times 5.00\% \times \frac{184}{365} \\ &= \mathbf{\$2,520.55} \end{aligned}$$

### Calculating the prepayment interest adjustment

The percentage of the *term* elapsed is calculated as follows:

$$\begin{aligned} & \text{Percentage of } \textit{term} \text{ elapsed} \\ &= \frac{\text{number of days deposited}}{\text{number of days in } \textit{term}} \times 100 \\ &= \left( \frac{365 \text{ days}}{730 \text{ days}} \right) \times 100 \\ &= 50\% \end{aligned}$$

As 50% of the original *term* has elapsed, an adjustment of 60% will apply (refer to Table 2).

$$\begin{aligned} & \text{Prepayment interest rate adjustment} \\ &= \text{adjustment} \times \text{your interest rate} \\ &= 60\% \times 5.00\% \text{ per annum} \\ &= 3.00\% \text{ per annum} \end{aligned}$$

Prepayment interest adjustment

$$\begin{aligned} &= \text{amount invested} \times \frac{\text{number of days deposited}}{365} \times \text{prepayment interest rate adjustment} \\ &= \$100,000.00 \times \left( \frac{365}{365} \right) \times 3.00\% \\ &= \mathbf{\$3,000.00} \end{aligned}$$

### Calculating the interest paid

On the withdrawal date 1 January, the Bank owes you an interest payment of \$2,520.55 (as \$2,479.45 has already been paid to you). This amount and the \$100,000.00 withdrawn by you will be paid to you. The prepayment interest adjustment amount of \$3,000.00 and the prepayment administration fee will be collected from you separately.

## Part 1: General Information

**Note:** The sum of the interest paid to you on the withdrawal date, all previous interest payments and the prepayment interest adjustment, will always be equal to or more than your original investment amount (excluding the prepayment administration fee).

### **What are the significant benefits of an FMD Account?**

Benefits include:

- provides you with the opportunity to carry-over before-tax income from years when it is least needed to years when it is most needed;
- can provide tax benefits if a deposit is held for 12 months or longer;
- there are no account keeping fees directly applicable;
- funds can be held *at call* or for a fixed *term*;
- when you select an At Call FMD Account the interest rate that you receive may rise if market interest rates rise; and
- when you invest in a Fixed Term FMD Account, you are protected from falling interest rates during the *term* of your investment.

### **What are the significant disadvantages of an FMD Account?**

Disadvantages include:

- when you select an At Call FMD Account the interest rate that you receive may fall if market interest rates fall;
- if you hold monies under the FMD scheme, prior to 1 July 2012, they must all be held at the same *financial institution* at any one time; and
- when investing in a Fixed Term FMD Account you cannot benefit from increases in interest rates that may occur during the *term* of the Fixed Term FMD Account as your interest rate is fixed for the *term*. Also, you will not be able to immediately access to your funds in a Fixed Term FMD account.

You should ensure that you are able to monitor and value any interest rate movements when investing in an FMD Account. The Bank may be dealing on its own account in interest rate markets and such dealings may influence interest rates.

## Part 1: General Information

### **How do you open an FMD Account?**

To open an FMD Account, please contact your relationship manager or any branch of the Bank. FMD Accounts can only be opened by completing the application form required by the *Farm Management Deposits Law*. This form is available from your relationship manager or any branch of the Bank.

When opening your FMD Account, the minimum opening deposit for an At Call FMD Account is \$1,000.00 and the minimum lodgement amount for a Fixed Term FMD Account is \$1,000.00.

After you have opened a Fixed Term FMD Account, the Bank will provide you with a confirmation of your deposit.

### **What are the costs involved in an FMD Account?**

There are no account keeping fees, however, other fees may apply. Refer to Appendix A for more information on Bank fees and Government taxes.

### **Are there any tax implications you should be aware of?**

The FMD scheme allows for the deduction of any FMD Account holdings from your assessable income for the year in which the deposit is made. However, the amount of the deductions cannot exceed your taxable primary production income for the year.

If you do not adhere to the rules that govern the FMD scheme including if you withdraw a deposit within 12 months of deposit (except in the circumstances outlined in Clause 3 of the Terms and Conditions), you may not qualify for tax benefits associated with holding an FMD. You may have to seek an amended tax assessment for the relevant period in which a deduction was claimed.

Investment income in the form of interest earned on an FMD Account is generally taxable income.

If you do not provide us with a Tax File Number (TFN) or Australian Business Number (ABN), the Bank is obliged by law to withhold tax at the appropriate rate from the interest you have earned, and any withdrawals made from your FMD Account.

## Part 1: General Information

Investing and dealing with investments has tax and often social security implications. These can be complex and are invariably particular to your circumstances. You should discuss the timing and derivation of income and any other tax issues with your independent professional tax adviser.
