

# Commonwealth Bank's Change on Card Spend.

CBA credit and debit card spending over the week ending 13 November 2020 is compared to the results from a year earlier. The following information has been developed by the Global Economic & Markets Research team.

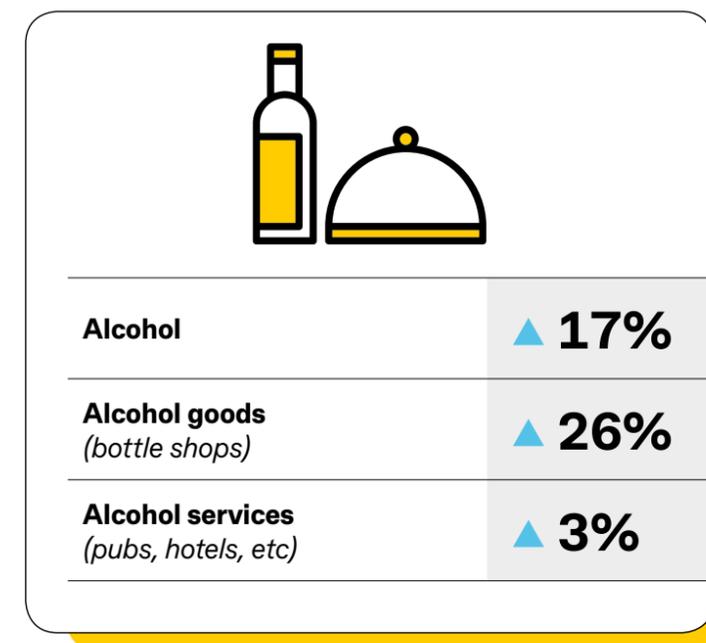

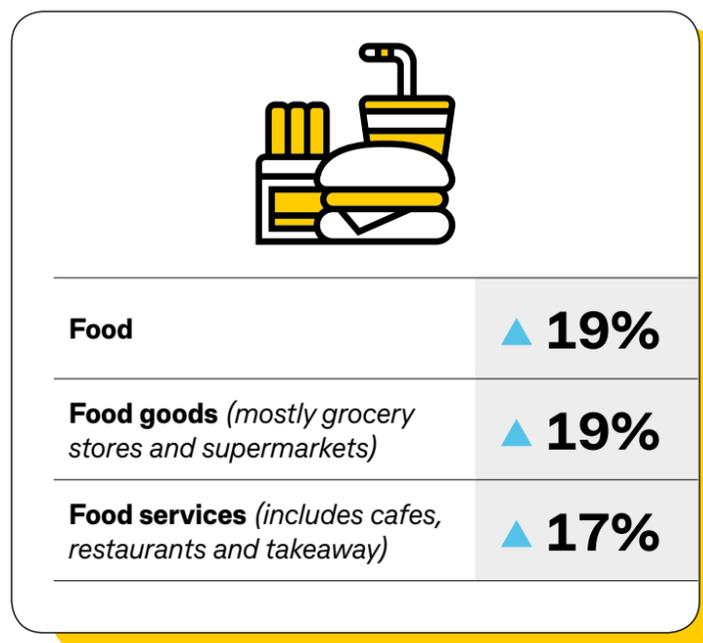

13<sup>th</sup> November

|                 |              |
|-----------------|--------------|
| <b>Total</b>    | <b>▲ 11%</b> |
| <b>Goods</b>    | <b>▲ 22%</b> |
| <b>Services</b> | <b>▲ 0%</b>  |

CBA household credit and debit card spending continued on a stronger path and is up 11%/yr for the week to 13 Nov 20.

- Annual growth in spending eased across all jurisdictions during the week. But spending growth in all jurisdictions (excl. WA) is up over the fortnight. New restrictions in SA from midnight on 16 Nov 20 will weigh on SA's card spend this week.
- Lifts in the recreation, food and alcohol services and broader retail categories have been key drivers of the fortnightly lift.
- Consecutive weeks of stronger card spend is a signal that consumer spending will make a solid rebound in Q4 20. Elevated consumer confidence and the reopening of NSW-VIC border next week bode well for recreation spend over coming weeks.
