

Commonwealth Bank's Change on Card Spend.

CBA credit and debit card spending over the week ending 15 January 2021 is compared to the results from a year earlier. The following information has been developed by the Global Economic & Markets Research team.

CBA household credit and debit card spending growth softened to 8%/yr for the week ending 15 Jan 2021.

- Interstate travel restrictions, as well as recent shutdowns in Greater Brisbane and Sydney have had their expected negative impact on spending. The services segment of the economy in particular has felt the pain over the past week.
- While every jurisdiction went backwards, in-store spending in QLD was unsurprisingly hit particularly badly in the week ending 15 Jan 2021.
- Despite the weaker read, near-term mobility indicators are recovering rapidly and household balance sheets remain in good shape. If virus containment measures are effective then the rebound in consumer spending will be swift.

Recreation
(includes accommodation, air travel, travel services)
