ASX Announcement

Items impacting CBA's financial reporting

Tuesday, 5 August 2025 Sydney: Commonwealth Bank of Australia (CBA) today provides an update on changes to financial reporting impacting the FY25 financial results.

1. Notable items included within Operating expenses in 2H25

During the half ended 30 June 2025, the Group has recognised \$130 million of provisions (pre-tax) relating to:

- \$45 million of additional restructure provision associated with ongoing changes to the operating model
 of Bankwest. These include the transitioning of Bankwest to a digital bank and the transition of
 Bankwest business banking to CBA.
- \$52 million of costs related to domestic customer remediation and \$33 million of costs related to the remediation of ASB customers.

To present a transparent view of the business' performance, these items will be excluded from the underlying operating expenses for the Group. Operating expenses for the Group will be presented both on an underlying and headline basis.

2. Changes to disclosures in the Profit Announcement and Annual Report

The following changes to the presentation of disclosures in the Profit Announcement and Annual Report have been made to enhance readability and consistency.

- Loans and other receivables disclosures including those related to credit quality and expected credit losses are presented by Home Loans, Consumer Finance and Business and Corporate portfolios in line with the management product view of the lending portfolio.
- The loans past due disclosure has been revised to include additional ageing categories covering all loan exposures (performing and non-performing) which are contractually past due in line with the requirements of APRA Prudential Standard Credit Risk Management (APS 220).
- The presentation of movement in non-performing exposures presentation has been updated to align to requirements under APRA's revised Prudential Standard for Public Disclosure (APS 330).
- Disclosures of movements in loan impairment provisions have been simplified with the related changes in credit exposures now disclosed in a narrative description for the current period rather than in a tabular format.
- The distribution of financial instruments by credit quality is presented on a total committed exposure basis.

In addition, Operating Performance has been included as a subtotal to the Divisional Performance tables to improve readability.

Impacted disclosures are presented in Attachment A.

3. Pillar 3 report

APRA's revised Prudential Standard for Public Disclosure (APS 330) became effective on 1 January 2025. Under the revised APS 330, CBA is required to disclose key prudential metrics and information in accordance with the requirements issued by the Basel Committee on Banking Supervision and APRA. On transition to the revised APS 330, authorised deposit-taking institutions are permitted to omit comparative information when disclosures are reported for the first time. Comparative information has been included in CBA's June 2025 Pillar 3 report where it is available.

4. Full year results announcement

CBA is scheduled to announce its full year results on 13 August 2025. A virtual results briefing will be webcast with Chief Executive Officer, Matt Comyn, and Chief Financial Officer, Alan Docherty, at 10:30am (Australian Eastern Standard time) on 13 August 2025. This briefing will be available via webcast on the Commonwealth Bank Investor Centre (www.commbank.com.au/results).

The release of this announcement was authorised by the Disclosure Committee.

Returned to performing status	(1,815)	(1,682)
Other changes ¹	(1,216)	(1,026)
Non-performing exposures - closing balance	9,638	10,313

¹ Other changes include repayments of facilities, increases in existing non-performing facilities and other exposure changes.

Annual Report

3.1 Loans and other receivables

Lending is the Group's primary business activity, generating most of its net interest income and lending fees. The Group meets customers' borrowing needs by providing a broad range of lending products in Australia, New Zealand and other jurisdictions. As a result of its lending activities, the Group assumes credit risk arising from the potential that it will not receive the full amount owed.

This section provides details of the Group's lending portfolio by product type.

¹ Comparative information has been restated to conform to the presentation in the current year.

² The assessment of significant increase in credit risk includes the impact of forward looking multiple economic scenarios in addition to adjustments for emerging risk at an industry, geographic location or a particular portfolio segment level, which are calculated by stressing an exposure's internal credit rating grade at the reporting date. This accounts for approximately 64% of Stage 2 credit exposures for the Group as at 30 June 2024.
