## An extensive team of experts

Every successful person knows the value of having the right experts within reach.

At Commonwealth Private, your success will be guided by our in-house investment specialists – from portfolio managers, researchers and analysts to our dedicated Commonwealth Private Investment Committee. Their role is to support your Private Wealth team in building, managing and monitoring your portfolio, and ensuring you have a robust risk-and-return strategy in place.

Your Private Wealth Team will explain our Core Investment offering and work with you to understand whether one of our diversified model portfolios suits your personal circumstances. Each of our portfolios, from Conservative through to High-Growth, includes our Core Equity Portfolio comprising the highest-quality Australian shares. Our dynamic asset allocation approach gives us the flexibility to review and update our house views across all asset classes, taking advantage of changing market conditions and values.

As your Private Wealth team constructs your investment portfolio, they'll tailor every investment recommendation to achieve a purposeful and decisive outcome. They can also help you unlock bespoke investment opportunities not typically available to retail investors, and take advantage of market intelligence and insights curated to match your personal circumstances.
