CommInsure is a signatory to the Life Insurance Code of Practice. - ◆ Heart Attack

These definitions are available to you in addition to the medical definitions for these conditions set out in your PDS.

Details of the minimum medical definitions and how they apply can be found [here](#).

What this update means

Where your policy includes cover for the above conditions, your policy now includes the FSC minimum medical definitions for a new event occurring on or after 1 July 2017, providing your policy was current or was in force (ie not cancelled or lapsed) as at the date of the event.
