

LOAN PROTECTION

MEDICAL DEFINITIONS REFERENCE GUIDE

Preparation Date: 23 September 2018

The information in this document forms part of the Loan Protection for Home Loan Customers Product Disclosure Statement (PDS) and the Loan Protection for Personal Loan Customers Product Disclosure Statement (PDS).

Which guide applies to my claim?

- For claimable medical conditions occurring on or after 23 September 2018, [click here](#).
- For claimable medical conditions occurring on or after 17 September 2017 but before 23 September 2018, [click here](#).
- For claimable medical conditions occurring on or after 24 June 2017 but before 17 September 2017, [click here](#).
- For claimable medical conditions occurring before 24 June 2017, please refer to your policy document/s.

If you have any questions, please call us on **13 39 82** between 8am – 8pm (Sydney time), Monday to Friday.

Medical Definitions

Medical condition	Means...
<i>Cancer</i>	<p>Cancer is the presence of one or more malignant tumours that are characterised by the uncontrolled growth and spread of malignant cells and the invasion and destruction of normal tissue.</p> <p>This definition of 'cancer' includes each of the following conditions:</p> <ol style="list-style-type: none"> 1. Lymphoma (including Hodgkin's and non-Hodgkin's disease) 2. Leukaemia other than Chronic Lymphocytic Leukaemia equivalent to Rai Stage 0 3. Multiple myeloma 4. Malignant bone marrow disorders 5. Carcinoma in situ of the breast which has resulted in: <ol style="list-style-type: none"> i. the removal of the entire breast, or ii. breast conserving surgery and radiotherapy, or iii. breast conserving surgery and chemotherapy (chemotherapy means the use of drugs specifically designed to kill or destroy cancer cells) 6. Carcinoma in situ of the testis 7. Prostatic cancers that are classified as: <ol style="list-style-type: none"> i. T1bN0M0 or greater, or ii. T1aN0M0 with a Gleason Score of 6 or more <p>This definition of 'cancer' excludes each of the following conditions:</p> <ol style="list-style-type: none"> 1. Cervical dysplasia, LSIL, HSIL, CIN1, CIN2, CIN2/3 and CIN3. 2. Non melanoma skin cancers including: <ol style="list-style-type: none"> i. intraepidermal carcinomas ii. basal cell carcinomas, and iii. squamous cell carcinomas of skin which have not spread to another organ. 3. Melanomas which are classified as less than stageT1bN0M0. 4. A prostatic cancer that is not included in the definition of 'cancer' under the list of inclusions above. 5. Chronic Lymphocytic Leukaemia equivalent to Rai Stage 0. 6. A tumour which meets both of the following: <ol style="list-style-type: none"> i. it is described histologically as premalignant or carcinoma in situ; and ii. it is not included in the definition of 'cancer' under the list of inclusions above. 7. A cancer which meets both of the following: <ol style="list-style-type: none"> i. it is classified as less than T1N0M0 as defined by the American Joint Committee for Cancer (AJCC); and ii. it is not included in the definition of 'cancer' under the list of inclusions above.
<i>Coronary artery bypass surgery</i>	<p>The undergoing of bypass surgery to treat coronary artery disease but excluding angioplasty and intra-arterial procedures.</p>
<i>Heart attack</i>	<p>The death of part of the heart muscle (myocardial infarction) as a result of inadequate blood supply to the relevant area.</p> <p>The diagnosis of myocardial infarction must be confirmed by a <i>relevant medical specialist</i> and evidenced by:</p> <ol style="list-style-type: none"> a. a typical rise and/or fall of cardiac biomarkers with at least one biomarker result above the upper limit of the reference range, and b. at least one of the following: <ul style="list-style-type: none"> • signs and symptoms of ischaemia consistent with a myocardial infarction; • confirmatory new, or presumed new, electrocardiogram (ECG) changes consistent with myocardial infarction; or • imaging evidence confirming the new loss of viable myocardium or new regional wall motion abnormality. <p>If the above evidence is inconclusive or superseded by technological advances, we will consider other appropriate and medically recognised tests that unequivocally diagnose the occurrence of a myocardial infarction of at least the degree of severity set out above.</p> <p>Other acute coronary syndromes where death of the heart muscle has not occurred are excluded.</p>

Note: the updated definitions only apply for claimable medical conditions occurring on or after 23 September 2018.

Medical condition	Means...
<i>Medical practitioner(s)</i>	<p>A person who meets all of the following:</p> <ul style="list-style-type: none"> • the person isn't you, the life insured or an immediate family member or business partner of you or the life insured • the person is a legally qualified medical practitioner whose credentials have been formally accepted by the medical authority of the Australian state or territory in which they practise • the person is registered by the medical authority to carry out the duties of a medical practitioner according to the authority's rules • the person is, if reasonably required by us, a specialist in a relevant field of medicine • the person is not an allied health professional such as a chiropractor, physiotherapist, psychologist or alternative therapy provider.
<i>Relevant medical specialist</i>	A <i>medical practitioner</i> we consider to be a specialist in the relevant field of medicine.
<i>Stroke</i>	<p>An infarct or haemorrhage involving the brain or spinal cord, producing neurological symptoms. There must be evidence consistent with stroke on CT, MRI or other appropriate imaging scan.</p> <p>The following are excluded:</p> <ul style="list-style-type: none"> • migraines • transient ischemic attacks, and • brain injury resulting from: <ul style="list-style-type: none"> ◦ trauma, or ◦ vascular disease affecting the eye, optic nerve or vestibular function.

Note: the updated definitions only apply for claimable medical conditions occurring on or after 23 September 2018.
