

1 YEAR GUARANTEED RATE HOME LOAN FACT SHEET.

1 Year Guaranteed Rate Home Loan provides an interest rate which will not change for the first year. After 1 year (from the date of the first loan drawing), the Standard Variable Rate applies, which will be a higher interest rate and result in repayments increasing at that time.

Interest Rates	<ul style="list-style-type: none"> The interest rate that will apply will depend on whether your home loan is for owner occupied or investment purposes and on the repayment type you select – principal and interest or interest only The 1 Year Guaranteed Rate product has two guaranteed interest rates for the first year, one for principal and interest repayments and one for interest only payments The interest rates will be guaranteed from the date of the first loan drawing and will be applicable for the 1st year After 1 year, the rate will revert to the applicable Standard Variable Rate relevant to your loan purpose and repayment type at that time You can ask us to rate lock your guaranteed interest rates prior to the loan being funded, for a non-refundable fee. If we agree, we'll lock your guaranteed interest rates for 90 days from the date we process your request and the interest rates on your loan won't change for the 1st year. You can ask us to break the rate lock (for example, if rates go down) and revert to the rates available on the funding date. <p>For a list of our current interest rates please refer to our Home Loan Interest Rates at commbank.com.au/homeloans</p>
