## Eligibility

- Available to Individuals only (Companies and/or Family/Unit/Hybrid Trusts are excluded).

## What you can use the loan for

- Owner occupied and investment property purchase
- Refinance
- Home renovations
- Consolidation of personal debt
- Off the plan purchases
- Purchase of land
- Building and construction loans
- Personal needs
- Personal investments other than cryptocurrency or digital assets

## What you'll get

- A discounted interest rate home loan and low fees for the life of the loan. The product discount margin will vary depending on the Loan to Value Ratio (LVR). The same interest rate discount margin applies for the entire loan term.
- The minimum loan amount is $\$ 10,000$ for new loans or $\$ 150,000$ in additional new borrowings if switching from an existing CommBank home loan type to an Extra home loan.
- Your loan comes with a fee-free redraw facility. You can make unlimited additional repayments at any time with no fees or penalties. You can redraw the amount you're ahead on your loan. For weekly and fortnightly direct debit payers, the available redraw balance will not include repayments made towards your next monthly minimum repayment. For more information on Redraw go to commbank.com.au/redraw
- Ability to split your loan balance into multiple loan accounts to take advantage of both fixed and variable rate home loans. This gives you the flexibility to structure your home loan to suit your individual needs by choosing the loan amount, loan type, loan term and repayment structure for each loan.
- Ability to switch your loan or repayment type, for example switching from an Extra to a Fixed Rate home loan or switching from Interest Only to Principal and Interest repayments.

## Trade-offs

This loan might not be right for you if:

- You want the certainty of knowing exactly how much you'll pay each month. Our Extra home loan has a variable interest rate. This means the interest rate can move up or down and your repayments will vary based on changes to the variable interest rate.
- You want to benefit from an interest offset account such as the Everyday Offset account. An interest offset account isn't available on this loan type.

Financial

- Our variable interest rates vary depending on whether:
- Your loan is an owner occupied or investment home loan;
- You make Principal and Interest or Interest Only repayments; and
- The LVR of your loan at the time of application.

For current interest rates go to commbank.com.au/home-loans/interest-rates

- You can apply to top up your home loan by an additional \$10,000 or more - subject to equity in your property and our approval.

Other considerations

- When buying a property, you generally require a deposit of at least $20 \%$ of the purchase price, plus enough to cover the additional upfront costs such as stamp duty and legal fees. If you don't have the full deposit amount required, you may need to pay Lenders Mortgage Insurance (LMI) or Low Deposit Premium (LDP). These are one off non-refundable, non-transferable costs and added to your home loan. The circumstances of your home loan will determine whether a loan will incur LMI or LDP.

## Repayment options

There is more than one way to repay your home loan.
Repayment type

Principal and Interest (P\&I)
Pay your home loan balance and the interest

## Interest Only (IO)

Pay just the interest on your home loan for a limited time

Each time you make a payment you will only pay off accrued interest - so none of the principal loan balance is paid off. Once the Interest Only period ends, your repayments will automatically switch to Principal and Interest for the remainder of the loan term which will increase your minimum required repayment.

The maximum total Interest Only period over the life of the loan is:

- 5 years for an owner occupied home loan; and
- 10 years for an investment home loan (maximum of 5 years at any one time).

Interest Only payments are not available within the last 5 years of your contracted loan term.

## Key considerations

- You'll have a lower interest rate when compared to the interest rate charged on Interest Only payments.
- You'll pay less interest over the life of the loan.
- You'll have a higher interest rate when compared to the interest rate charged on Principal and Interest repayments.
- You'll pay more interest over the life of the loan this is because you aren't reducing the loan balance during an Interest Only period.
- Your minimum required repayment will be lower for the Interest Only period, however it will increase at the end of the Interest Only period. Your minimum required repayment will be higher than if you'd chosen Principal and Interest repayments for the life of your loan, as the amount you have borrowed will need to be paid back over a shorter timeframe.
- Applying for Interest Only payments is subject to approval.

[^0]:    ${ }^{2}$ The example is for illustrative purposes only. It assumes interest rates don't change over the life of the loan and are calculated on the rate that applies for initial period of the loan. Interest rates may change at any time. The calculations do not take into account fees, charges or other amounts that may be charged to your loan (such as establishment, monthly services fees or stamp duty). No additional repayments and redraws are made. Standard fees and charges are payable.

[^1]:    Things you should know: Everyday Offset is a feature of our Complete Access Transaction account which is linked to an eligible home loan, and accountholder(s) must also be accountholders of the linked home loan. Interest is not charged on the part of the Home Loan balance equal to the Transaction account.
