

Combining coins to pay for things.

What to do.

1. Ask a grown-up to lend you a range of coins. Show them this chart and ask them to make sure you can make each amount with the coins.
2. Look at the prices of each item and choose a combination of coins to pay for them.
3. Something harder: try and do it without any \$1 or \$2 coins.

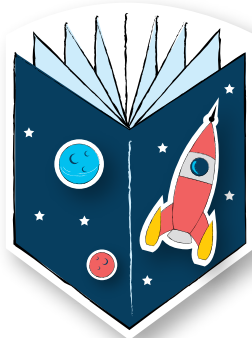

\$3.00

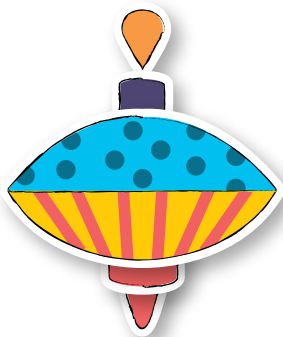

\$5.60

\$0.80

\$2.45

\$1.25

\$4.75
