

# COUNT YOUR CHANGE.

## What to do.

1. Ask a grown-up to play shop with you and lend you a range of coins and notes.
2. Cut out the price tags below.
3. Pick some toys or objects to put in the shop and give each one a price tag.
4. The grown-up is the shopkeeper. You now need to use money to buy items. Be sure to give them enough money.
5. Count your change. How much change were you expecting? Is it right?
