

Mortgage Interest Saver Account Fact Sheet.

Effective 16 March 2019, the Mortgage Interest Saver Account (MISA) feature will no longer be available for sale or activation. The feature will also be removed if your existing MISA balance reduces to a zero balance on or after 16 March 2019. If you switch or split your loan, your MISA may be closed and cannot be reactivated or reopened. You will not be able to open a new MISA feature on your new loan(s).

Mortgage Interest Saver Account (MISA) is an offset account linked to an eligible home loan. Savings in a MISA offset your loan balance and reduce interest payments whilst retaining quick and convenient access to your savings. Depending on your eligible home loan type the MISA balance is either full or partial offset.

- Full offset – means interest is not charged on that part of the Home Loan balance equal to the balance of the offset

For example: if you have \$10,000 in your offset and a home loan balance of \$200,000, you'll only pay interest on \$190,000 of the home loan. You do not earn interest on the \$10,000 in your offset.

For example: if you have \$10,000 in your offset and a home loan balance of \$200,000 with a 5% p.a. interest rate, the interest rate on \$10,000 of your home loan will be reduced by 1.5% p.a. to 3.5% p.a. This means that you will pay 3.5% p.a. on \$10,000 and 5% p.a. on \$190,000 in your home loan. You do not earn interest on the \$10,000 in your offset.

Which home loan products can MISA offset?	Full interest offset applies to the following products: <ul style="list-style-type: none">• 1 Year Guaranteed Rate• 12 Month Discounted Variable Rate• Standard Variable Rate.
